

National Tree Week

March 21st to 27th March

To celebrate Tree Week, Jct4 are running a design initiative.

The rationale in the Wood Technology specification states that trees are

'one of our key natural resources'

'The sustainable use and management of this natural resource is important as the world faces the challenges of the 21st century.

From habitats to construction or recreation to oxygen creation this resource can play a significant role in wellbeing of our planet'

Wood Technology Specification, page 4.

As part of this initiative students are asked to design an artefact that celebrates how forests and trees contribute to the enhancement of both our environment and wellbeing.

Your design response may include the following:

- Research/background information that will support your idea
- Sketches/drawings to communicate your design solution
- Your response must be presented on a **single A3 sheet**

Please submit entries to:

jct4competitions@jct.ie by Friday April 3rd

A number of entries will be selected to receive a visit and presentation from one of our partners in this initiative.
