

# Research Reflection Questions

	<b>UNDERSTANDING</b>	<b>RELEVANCE</b>	<b>ACCURACY</b>	<b>RELIABILITY</b>
<b>BEFORE</b>	Did I understand the information?	Is the information related to my research?	How have I checked my sources?	Did I use more than one source of information?
<b>DURING</b>	Do I understand why I am presenting my findings in this way?	Do my findings answer the key geographical questions?	Did I present my results accurately?	Have I referenced my sources and checked my findings for reliability?
<b>AFTER</b>	Did I learn something new?	Who would be interested in my findings?	How do I know the information is accurate?	If I were to do this research again, would I do something differently?
