

Learning Tools – Immersive Reader

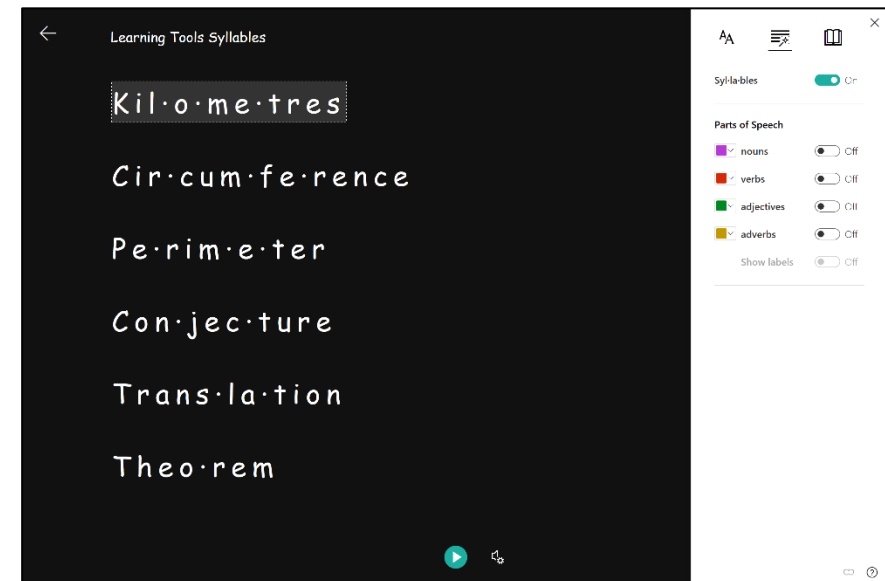

[Microsoft Learning Tools](#) are free tools to Microsoft Office users that improve accessibility to content for learners regardless of their age or ability. They include an immersive reader with options to improve reading, comprehension, and translation. Learning Tools' **Immersive Reader** is available across devices and applications such as **OneNote, Word, Teams, Outlook, Edge** and **Office Lens**.

Below are some images that depict some of the Immersive Reader's functionality within the **Windows 10 OneNote app**.

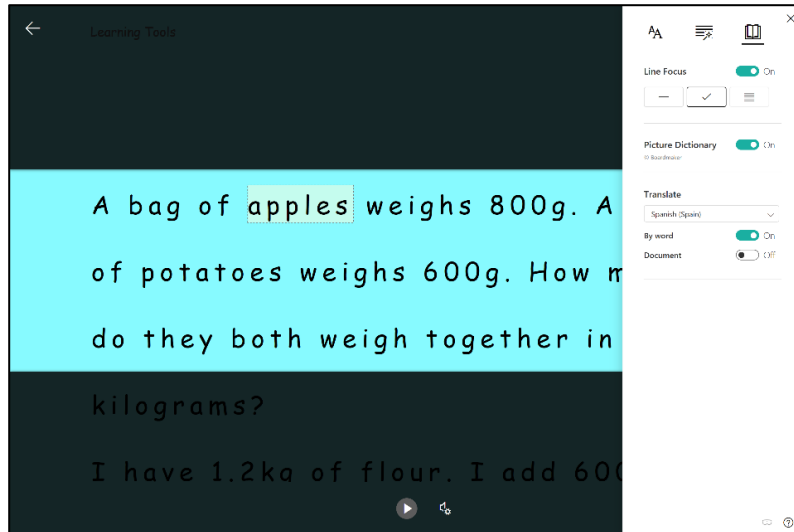

Text Preferences: Change size, font and colour of text

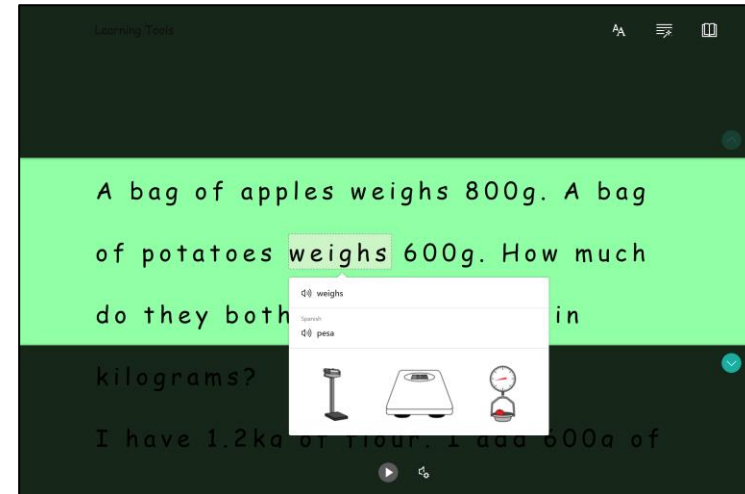

Grammar: Break words into syllables and identify parts of speech

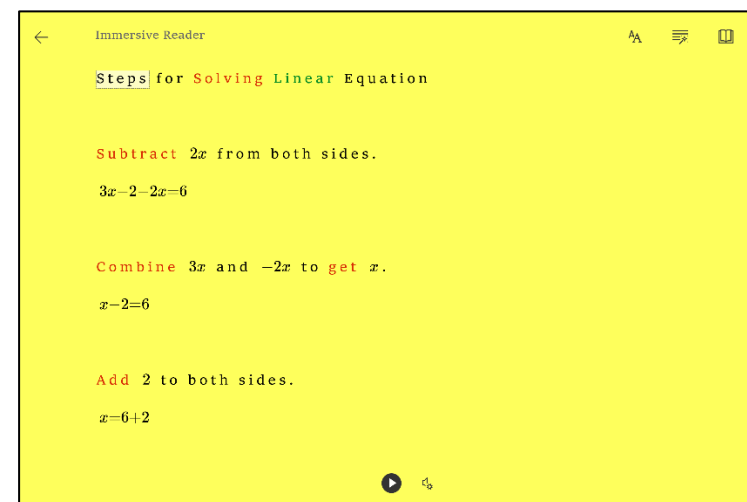

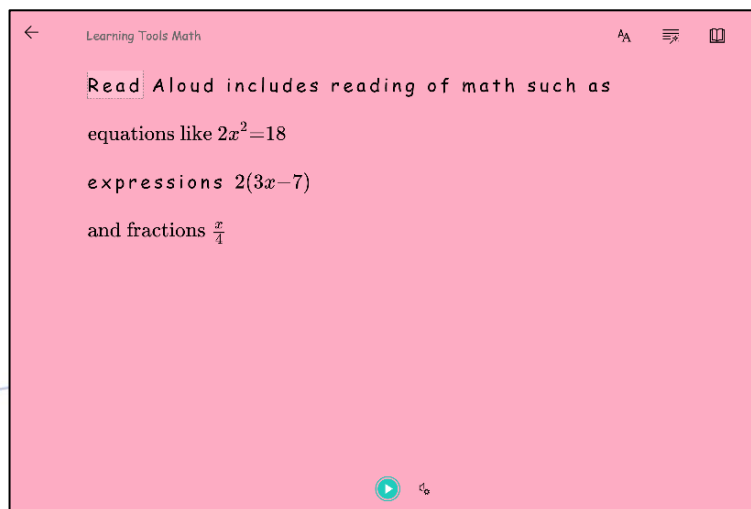

Reading Preferences: Options to change line focus, enable a picture dictionary and translation features

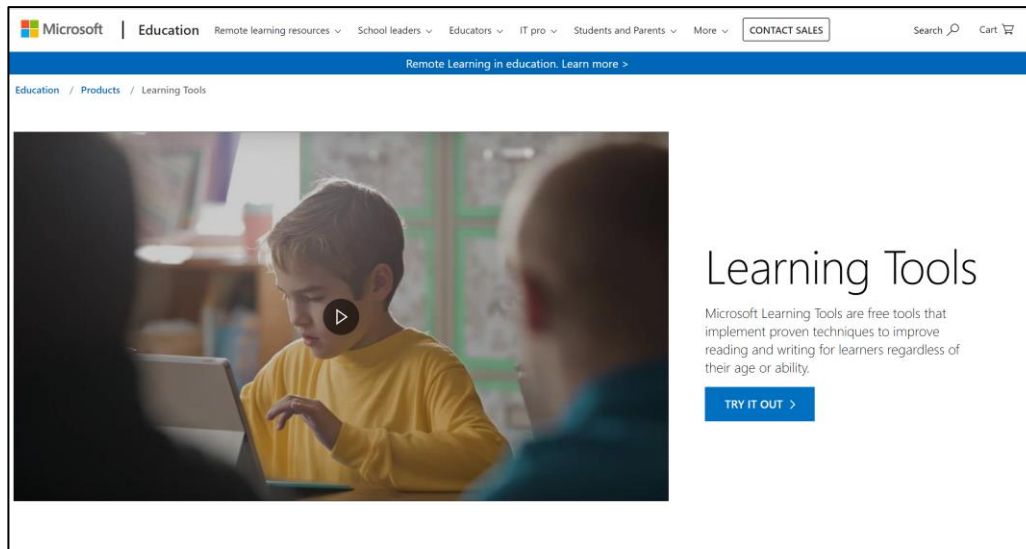

Picture dictionary and translation tools

Learning Tools Immersive Reader supports **reading aloud** of mathematics notation
